

March 2024

NZISM 3.7 Released – What does it mean for NZ Government organisations

The launch of the new NZISM edition marks a significant shift in our cyber security framework.

Here's your action checklist to stay compliant and secure.

Review and Adapt

- Unpack the NZISM updates.
- Align your security framework with the latest standards.

START NOW

Training Your Team

Roll out targeted training to ensure your security team is clued up in the updated security controls.

Technology Integration

- Understand and embrace technology shifts.
- Implement necessary technology adaptations to meet the new standards head-on.

Mastering Compliance

Regularly audit your practices against the new NZISM benchmarks to ensure ongoing compliance.
